

PEPFAR GAZA

PARTNERSHIP FOR AN AIDS-FREE MOZAMBIQUE

MISSION

The U.S. President's Emergency Plan for AIDS Relief (PEPFAR) proudly supports Mozambique's fight against HIV/AIDS. With an adult HIV prevalence rate of 11.5%, Mozambique is one of PEPFAR's 15 priority countries. To date, Mozambique has received approximately \$1.9 billion in PEPFAR funding. These investments support evidence-based interventions in pursuit of an AIDS-free generation, including HIV testing and counseling, voluntary medical male circumcision, the provision of antiretroviral treatment, clinical and community-based care for people living with HIV/AIDS (PLWHA), and more.
